Insights. The main takeaways from our testing with this generation of NVLink are as follows: The GeForce RTX 3090, RTX A6000, and RTX A5000 use a new NVLink connection, which is not compatible with the bridges from the 20-Series and Quadro RTX cards.; RTX A6000 / A5000 and GeForce RTX 3090 NVLink bridges may look different on the outside, but they appear to be functionally identical.
