In a learning organization's learning environment, she says, "People need to feel safe to express their opinions, take risks, examine failure and challenge dominant ideologies. Differences are appreciated, and there is an openness to new ideas because it disrupts inertia and encourages innovation."

What is a Learning Organization? | ELM Learning

Subjective assessments are excellent for subjects like writing, reading, art/art history, philosophy, political science, or literature. More specifically, any subject that encourages debate, critical thinking, interpretation of art forms or policies, or applying specific knowledge to real-world scenarios is well-suited for subjective assessment.

The Difference Between Subjective and Objective Assessments

57 Common Interview Questions, Answers and Examples

Iterative design is a design methodology based on a cyclic process of prototyping, testing, analyzing, and refining a product or process. Based on the results of testing the most recent iteration of a design, changes and refinements are made. This process is intended to ultimately improve the quality and functionality of a design.

Iterative design - Wikipedia

We are all born with innate resiliency, with the capacity to develop the traits commonly found in resilient survivors: social competence (responsiveness, cultural flexibility, empathy, caring, communication skills, and a sense of humor); problem-solving (planning, help-seeking, critical and creative thinking); autonomy (sense of identity, self ...
