## **Process Mapping Guidelines**

Corrugated cardboard is a stiff, strong, and light-weight material made up of three layers of brown kraft paper. In 1884, Swedish chemist, Carl F. Dahl, developed a process for pulping wood chips into a strong paper that resists tearing, splitting, and bursting.

## **How corrugated cardboard is made - material, manufacture ...**

Brown paper pulp, such as paper pulp used to make paper towels, is not bleached. The pulp, which is now 99 percent water and one percent fiber at this stage, may be combined with pulp made from new materials to enhance its properties, and is then pumped over onto a paper machine [12] .
