Nice pdf: chapter 15 the urinary system answer key

topic of this chapter. The organs of the urinary system are organs of excretion—they remove wastes and water from the body. Specifically, the urinary system “cleans the blood” of metabolic wastes, which are substances produced by the body that it cannot use for any purpose. However, as you will learn in this chapter, the urinary system does far more: This system is also essential for removing toxins, maintaining homeostasis of
