Chapter 1SPU DESIGN PROCESS This chapter of the Design Standards and Guidelines (DSG) explains a typical design process from project initiation through commissioning for a Seattle Public Utilities traditional design-bid-build project. The primary audience for this chapter is SPU engineering staff.

Contents

The chapter notes that there is no one “single” correct design solution to a lighting problem, but suggests that the analytically-focused process outlined in the chapter will lead to appropriate solutions. The goal of the lighting design process is said to be the creation of an efficient and pleasing interior.

Chapter 1: DESIGN PROCESS - areforum.org

The design process was separated from the production-based process for a number of reasons. Primary was the efficiency-oriented mindset of the manufacturers who were focused on creating products with low unit costs and high yield outcomes, rather than on pleasing aesthetics or high-quality materials.
