Algebra Help - Free Math Help

Explanation: . With rational equations we must first note the domain, which is all real numbers except and .That is, these are the values of that will cause the equation to be undefined. Since the least common denominator of , , and is , we can multiply each term by the LCD to cancel out the denominators and reduce the equation to

How to find out when an equation has no solution - Algebra 1

Linear Algebra is one of the most important, if not the most important, subjects to learn for a prospective quant or data scientist. In an abstract sense Linear Algebra is about the study of linear maps between vector spaces. It teaches us that in certain cases linear maps and matrices are actually equivalent. This latter result makes it ...
