Artillery was the most devastating weaponry of World War One, with some bombardments lasting for days and destroying landscapes.Indeed, many of the battlefields in France and Belgium still show the pock marks of artillery fire, and farmers regularly dig up shells when ploughing fields.

#### 12 Important Artillery Weapons from World War One ...

The changing role of artillery at Arras. The Battle of Arras saw artillery being used as part of the overall army battle plan, rather than as a separate weapon.. Infantry attacks were only as good as the artillery that supported them. The artillery had to be more precise, more direct, and it had to enable the infantry to get to its target without being machine-gunned to bits in No Man's Land.

#### The Importance of Artillery in World War One - History Hit

There are also tabulations of the organizational structure of the German army artillery units. Pages 109-113 contain tabulations of artillery gun and ammunition production and gun losses through the war years. This is by no means an exhaustive book of all German army guns used in WW II.
