Swimming pool algae grows due to lack of proper sanitation, filtration and high pH. Usually you'll see this algae free floating in your swimming pool or on the pool walls which can cause your entire pool to turn green. The good thing about this type of algae is that it's easy to get rid of. Chlorine, Hydrochloric Acid or algaecide will do the trick.

### How To Get Rid Of Pool Algae (Green Pool Water) - Mr Pool Man

Hi Karen, for an Intex pool, go with the 1500 GPH unit, or the 2500 GPH unit, both may require Intex Type B adapters. If you have a steel sided aboveground pool, check out the Hayward X-Stream filter system. I also like the Raypak CFP system, the 100 or for the price, the 150 SF system. For salt system, for an INtex pool, see the Intex salt ...
