The procedures form the essence of the ISO 9001 documentation: they explicitly describe how numerous processes within the company must be performed, and who is responsible for them. Ideally, the procedures are combined in a single user-friendly document (a "procedures manual" or "quality management manual", or similar).

The minimum content for a quality manual is specified by ISO, however, the format and structure of the manual can vary based on the needs of the organization. For example, a small organization may include the description of its entire QMS within a single manual, including the documented procedures, while a large organization may require several manuals and a more complex hierarchy of documentation.
