PDF Managerial Decision Making Management 1st Edition

Researchers have studied the managerial decision-making process and have identified six stages that go into making an informed decision. The initial step is simply to understand that a choice must be made because the status quo no longer holds or something external has forced a change in the organization.

6 Steps of the

Introduction and
Definition of Decision
Making: A decision is
the conclusion of a
process by which one
chooses between two
or more available
alternative courses of
action for the purpose
of attaining a goal(s).
The process is called
decision making.
