IBM's OS/360 IEBUPDTE software update tool dates back to 1962, arguably a precursor to version control system tools. A full system designed for source code control was started in 1972, Source Code Control System for the same system (OS/360). Source Code Control System's introduction, having been published on December 4, 1975, historically implied it was the first deliberate revision control ...
