human rights mechanisms and used by a growing number of governmental and non-governmental actors. Concrete examples of indicators identified for a number of human rights—all stemming from the Universal Declaration of Human Rights—and other practical tools and illustrations are provided to support processes and stakeholders that aim to

HUMAN RIGHTS INDICATORS - OHCHR | Home

Abstract. This article suggests that research in the field of human rights, especially legal human rights research, exhibits a tendency to devote insufficient attention to questions of methodology. This may be caused by the fact that human rights scholars often are (former) human rights activists. Dispensing with methodological niceties enables them to engage in wishful thinking and come up with the conclusions they were hoping to find in the first place.
